PROFESSIONAL EXPERIENCE

Mid Level Frontend Developer

Proxolab

10/2023 – present

Denizli, Turkey

- Addressing customer requests and fixing bugs in the first version of a project developed with **React, TypeScript, Laravel** and **Material UI**.
- Designing and developing projects from scratch using **Vue.js, PrimeVue, Tailwind, Tanstack Query, Vee Validate, Pinia**, and **Axios**.
- Bug fixing in the backend, written in **Go**, when needed.

Frontend Developer

Proxolab

06/2022 – 10/2023

Denizli, Turkey

- I am working on bug fixes for a project designed with **React** and **Material UI**.
- I am rewriting the components of the project using **Next.js, TypeScript**, and **Material UI**.
- I create the project's design using Figma.

Jr. Frontend Developer

Albert Solino

11/2021 – 06/2022

Istanbul, Turkey

- I was converting Figma designs into code using **HTML, CSS (Sass), Ruby on Rails** and **JavaScript**.
- I had the ability to address backend issues written in **Ruby** when needed.
- I designed and coded new pages based on customer requests.

Intern

NFT Soft

07/2020 – 09/2020

Erzurum, Turkey

- Converting Figma designs into code using **HTML, CSS (Sass)**, and **JavaScript**.
- Website design using WordPress.
